EDUCATION

VIT Bhopal University, Bhopal, India
Bachelor of Technology in Computer Science and Engineering
CGPA: 8.43

Sep 2023 – 2027

TECHNICAL SKILLS

Languages: Java, C++, Python, JavaScript, TypeScript
Concepts: OOP, Data Structures & Algorithms, DBMS, Operating Systems, Computer Networks, Design Patterns, RESTful APIs, MVC Architecture, Debugging, Performance Optimization **Frontend:** React, React Native (CLI & Expo), Java AWT, Java Swing
Backend: Spring Boot, Node.js, Express.js, REST APIs
Database: MySQL, MongoDB, Firebase
Tools: Android Studio, Postman, Maven, Git, GitHub, VS Code

PROFESSIONAL EXPERIENCE

Android Development Intern

DW Innovation Pvt. Ltd., Pune, Maharashtra

Dec 2025 – Feb 2026

- Engineered 4+ Android application modules using Java and React Native, contributing to the successful delivery of production-ready mobile applications.
- Integrated 20+ RESTful APIs and implemented SQLite-based local storage, improving data accessibility and application reliability.
- Optimized network requests and application workflows, reducing loading times by 20% and enhancing user experience.

PROJECTS

E-Commerce Platform — Spring Boot [GitHub]

Java, Spring Boot, MySQL, Thymeleaf

- Architected a full-stack e-commerce platform supporting 20+ product listings, cart management, and end-to-end order processing.
- Developed 10+ RESTful APIs and secure authentication workflows using Spring Boot and MySQL, enabling reliable user and transaction management.
- Optimized database queries and backend workflows, reducing response times by approximately 25% and improving application scalability.

PNG Jewellers Admin Portal [GitHub]

React Native, Node.js, Express.js, MongoDB

- Built 5+ administrative modules for inventory tracking, product management, and customer operations.
- Unified frontend and backend systems by integrating 8+ REST APIs, enabling efficient real-time data management.
- Restructured component architecture and strengthened authentication workflows, reducing code duplication by 30% and improving maintainability.

VConnect — GDGC Project [GitHub]

React Native, Node.js, Express.js, MongoDB

- Conceptualized a student networking platform featuring user profiles, community interactions, and real-time engagement capabilities.
- Integrated 6+ backend APIs and JWT-based authentication systems, enabling secure and seamless user interactions.
- Implemented real-time communication features using Socket.IO, supporting instant messaging and scalable user engagement.

CERTIFICATIONS

Market Analytics - NPTEL(Jan-Apr 2026)
OCI Generative AI Professional Certification - Oracle(Oct 2025)
The Bits and Bytes of Computer Networking - Coursera(Nov 2025)
